Barista Oat Milk

10615236 | 12 X 32 OZ CASE

"So you're a barista? Perfect. This carton of Barista Edition Oatmilk is made from liquid oats which means it isn't overly sweet or excessively ""heavy"". What it is, is fully foamable putting you in total control over the density and performance of your foam so you can showcase your latte art skillz, sorry we mean skills. Anyway, give it a try and see what you think. So you're not a barista? Also perfect. Just heat this Barista Edition Oatmilk in a container while giving it a whirl until it foams up nicely and then pour yourself a latte without cow's milk. And if you don't feel like a latte you might be happy to know that this product tastes just as amazing if you skip all the foaming and pour it right into your coffee or drink it straight out of the container or pour it on your granola or put it to work with your cooking skills. But let's keep that between us non-baristas, okay?"
