

THE COUNTRY'S OLDEST CHEESE COMPANY

Marin French Cheese Co. is the country's oldest cheese company, operating at their historic creamery in Marin County, California since 1865. They marry traditional French techniques with California terroir and spirit to produce indulgent, award-winning, and original cheeses. Made with real, high quality local ingredients, our cheeses reflect one of life's simplest and most authentic pleasures: experiencing good food.

Their creamery remains dedicated to combining traditional techniques while caring for the land by sourcing and filtering water from the property's man-made ponds for use throughout the creamery. They are home to a local fire station, built near their creamery's main pond, to protect their terroir and that of their neighbors. The remaining 700 acres of the ranch are leased to local sustainable farmers who raise cattle, pigs, chickens, bees, and grow vegetables. Practices like these ensure their heritage cheeses will be available for generations to come and the history of the land is respected.
