

Chocoa

74% Extra Bittersweet Chocolate

QZ100649N | 10 KG CASE

74% bittersweet chocolate is a rich and intense chocolate with a high cocoa content. It has a strong, dark chocolate flavor with a hint of bitterness, balanced by a subtle sweetness. This chocolate is perfect for chocolate enthusiasts who enjoy the bold, complex flavors of dark chocolate. It can be used for baking, chocolate making, or simply enjoyed on its own as a luxurious treat. It's often used as a chocolate recipe ingredient to make chocolate bars, chocolate truffles, chocolate fondue, and more. Due to its high cocoa content, it is also considered a healthier option as it contains less sugar and more cocoa solids.
