

Uno Basin Bottle Trap

Warranty:

All Abode products are made using the highest quality materials and components, to ensure that they meet or exceed all UK or European Standards. All products are thoroughly tested, and quality checked. All products are backed with a comprehensive warranty and we are confident that they will give many years of trouble-free service.

The warranty applies to products used for normal domestic purposes and where the installation, care and maintenance instructions have been observed. The warranty extends to the original purchaser only. Details of Warranty duration and Terms & Conditions for each product type can be found on our website (www.abodedesigns.co.uk)

Important Care Instructions for your Product:

To maintain the appearance of this product, ensure that it is regularly cleaned only using a clean, soft damp cloth. A solution of warm water and a mild liquid detergent may be used where necessary, and then the fitting rinsed thoroughly and wiped dry. Any other cleaning action or use of common domestic cleaning products will invalidate your warranty.

If the product has a plastic aerator insert at the end of the spout it should be unscrewed and the plastic internal insert only removed and cleaned or descaled to maintain flow performance. Do not use descaling solution on any decorative metal housing, rinse the insert thoroughly before reattaching in the reverse order.

Abrasive cleaners, scouring cleaners and acidic cleaners **must not be used on this product** under any circumstances. Avoid contact with all solvents (including chlorinated solvents, ketones or acetones as these may result in surface deterioration or etching). Also avoid contact with any harsh household chemicals such as oven cleaners, drain cleaners, rust removers, paint strippers and toilet bowl cleaners, bar keepers friend or Brasso.

Please leave these instructions for your customer.

Important Technical Data:

For the maximum and minimum adjustability please refer to our website.

These installation guidelines have been prepared for your direction and you must exercise due care at all times. We do not accept responsibility for problems that may occur through improper installation. Whilst installing the product take care not to accidentally loosen any premade assembled assemblies or mark any decorative finishes.

Installation Preparation:

Before installing the new product please remove all packaging and inspect all parts are undamaged and present.

Note some parts may be preassembled for your convenience.

Parts and Contents:			
Key	Description	Qty	
A	Stepped seal	1	
B	Inlet pipe	1	
C	Inlet nut (1 ¼")	1	
D	Trap top nut	1	
E	Vertical tapered seal	1	
F	Plastic internal	1	
G	Body	1	
H	Inspection cap and seal	1	
I	Stepped & tapered seal	1	
J	Outlet nut	1	
K	Outlet pipe (32mm O/D)	1	
L	Decorative cover	1	

Installation:

1. Connect the outlet pipe (K) to the drain pipe using a suitable union connector, note the outlet pipe (K) can be cut to length if required.
2. Push the decorative cover (L) then outlet nut (J) then stepped & tapered seal (I) over the outlet pipe (K).
3. Connect the outlet pipe (K) to the body (G) outlet and tighten the outlet nut, the center of the body (G) should align vertically with the basin waste.
4. Place the stepped seal into (A) the inlet pipe flange (B).
5. Loosen (not remove) the trap top nut (D) and slide the inlet pipe until it reaches the basin waste outlet.
6. Screw the inlet nut (C) onto the basin waste 1 ¼" threaded outlet.
7. Tighten the trap top nut (D).

After Installation:

Test the all the seals and joints for any leaks.

If you should need to clean the bottle trap this can be done using a coin to unscrew the inspection cap (H).

Clean and dry the product of any marks from installation then cover the product to protect it until it is ready to use.
