# Adjustable Containment Solution Brush Kit

**Adjustable Containment Solution  Brush Kit**

The ACS Brush Kit provides a penetration port through the 6 mm double wall polycarbonate panel for cabling infrastructure.  When properly installed, the ACS brush kit will limit air leakage through the penetration and provide edge trim to protect cabling from sharp edges. Install the ACS brush kit in a restricted service environment, such as a data center. Use indoors only, in environmentally  controlled areas; do not use outdoors, in harsh environments or in air-handling spaces. The ACS brush kit is sized for use with standard cable runway sizes:

12", 18", and 24" width.
