

Service Parts for GT-Series GlobalFrame Gen 2 Cabinet Systems

SERVICE PARTS:

Replace cabinet components or upgrade for new applications using the following service parts. The following service parts are available as replacement parts or to add additional versatility by adding components to meet application requirements.

Square Punched Equipment Mounting Rails

Kit includes one pair of 19" EIA square-punched equipment mounting rails and installation hardware.

- Punched with the industry-standard EIA/ECA-310-E Universal hole pattern with 44.45 mm (1.75"H) rack-mount spaces/units (U) which supports most rack-mount equipment
- Each rack-mount space/unit (U) is marked and numbered on the rails so you can quickly locate equipment
- Square-punched attachment points allow mounting hardware (cage nuts) with different threads at each U so you can change mounting hardware to match equipment mounting requirements
- All rails have attachment points for accessory snap-on plastic cable D-rings (Cable Ring Kits) to create a separate vertical pathway for managing cables
- The 800 mm wide models have cable pass-through ports
- Select Equipment Mounting Rails to match cabinet width
