

Product Information Sheet

MECHANICAL COMPRESSION TOOLS

Mechanical Compression Tools are used to attach compression lugs and butt splices (not recommended for use with C-Tap connections). The tools feature long steel handles with comfortable rubber grips. The Dieless Compression Tool works with either copper or aluminum conductors. The Crimp Tool comes complete with dies and features extra-long handles for two-handed crimping.

Compression Tool

Crimp Tool

Part Number	Description	Conductor Size	Length	Shipping Weight
