 - SloanStone Solid Surface
- Enclosure Type: Plastic
- Mounting: Wall-Mounted
- Width: 50" (1270mm)
- Power Type: Battery

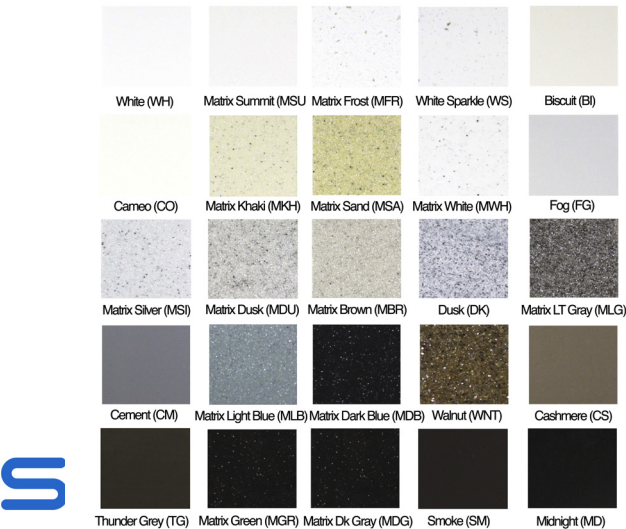

Features

Double Station Lavatory System with Sloan Electronic Sensor Technology with the following features:

- Integrated Head containing pre-plumbed water paths and electronic components preassembled on a single mounting plate for rapid, easy installation/maintenance
- Sloan Electronic Sensors for hands free point of use activation
- Optional top filled gravity fed manual Soap Dispensers
- Basin and Integrated Head constructed of durable SloanStone solid surface material
- ADA and TAS lavatory Rim Height Standards achieved

Performance Series sinks are a one-piece molded design with a slight angle outward at the side aprons to facilitate the fabrication process thus the overall length of the sink measured along the bottom edge may be up to ½" greater than noted length. Performance Series sinks are commonly available in one to four station lengths (most models) and cannot be seamed together to create a longer sink layout. Please note that scratches on dark, high gloss finishes may be noticeable and require periodic refinishing to maintain the glossy appearance. Take care placing and sliding objects that may scratch the surface.

Colors

Recommended specifications
