

ELAD-83000 Integrated Sink System, ELAD

Three Station Solid Surface

Sink Location

Determine the appropriate wall location for the Lavatory System. Consider that hot and cold water supply lines, a drain line, and an electrical source (receptacle for hardwired faucets and hand dryer) will be required. Compare the physical dimensions of the Lavatory System to the space available for the installation. If wall is not load bearing, a carrier may be required behind the wall. Refer to the appropriate Rough-in diagrams for Lavatory System dimensions. Prior to Lavatory System installation, electric wiring, water supply and drain must be installed.

ELAD Three Station Components

ELAD Three Station Component List			
Description		Item Number	Quantity
ELAD, Three Station, Integrated Deck		1	1
Enclosure		2	1
EFX Series Faucet		3	3
Basys Style ESD 500 Soap Dispenser		4	3
Basys Style Hand Dryer		5	3
Hook and Hang Access Panel		6	2
