

Technical Data Sheet

Ref: TDS-02-TAF-01

Masonry & Cavity Fixings

Metal Insulation Discs - Metal Oval Stress Plate - Plastic Cover Cap

Features

- A large diameter head for use with screws to hold insulation material to battens.
- Available in larger sizes to provide greater surface area to hold lighter or softer insulation.
- Also available in austenitic stainless steel for ultimate corrosion resistance.
- Pre Galvanised Steel.
- MID8240 - Oval type for use in softer materials, accommodates countersunk screws and recesses itself into insulation for a flush finish.
- MIFC - Plastic cover for Metal Insulation Fixings to reduce the likelihood of thermal bridging.

Dimensional Data

Metal Insulation Discs

Product Code	Material / Finish	Hole Size (S)	Diameter (D)	Thickness
MID35	Pre Galvanised Steel	5	35	0.6
MID50	Pre Galvanised Steel	6.5	50	0.6
MID70	Pre Galvanised Steel	10	70	0.6
MID80	Pre Galvanised Steel	12	85	0.6
MID36SS	Stainless Steel	5.5	36	0.6

Metal Oval Stress Plate

Product Code	Material / Finish	Hole Size (S)	Size (L x W)	Thickness
MID8240	Pre Galvanised Steel	6.5	82 x 40	1.0

Plastic Cover Cap

Product Code	Material / Finish	Diameter (D)	Thickness
MIFC	Polypropylene	38	2.1

All stated figures (mm) are approx and for reference only.

Installation Data

Note: Once installed, the head of the metal fixing should be sealed to avoid any contact with wet plaster. Failure to do so may result in surface damage.
