

Technical Data Sheet

Ref: TDS-02-TBA-01

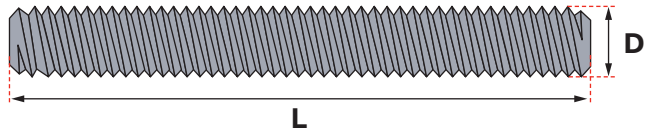

Threaded Bars

Threaded Bars - A2 Stainless Steel

Features

- Commonly used with drop in anchors for suspending cable trays from ceilings or can be cut to a required length and used with chemical resin.
- A2 Austenitic Stainless Steel.
- Min Tensile strength of 700N/mm² as per ISO 3506.
- Metric thread.
- Conforms to DIN975

Dimensional Data

Product Code	Diameter (D)	Length (L)
06TBSS	M6	1000
08TBSS	M8	1000
10TBSS	M10	1000
12TBSS	M12	1000
16TBSS	M16	1000
20TBSS	M20	1000

All stated figures (mm) are approx and for reference only.
