

Technical Data Sheet

Ref: TDS-06-BMW-20

Builders Metal Work Fishtailed Frame Cramps - Galv

Features

- Traditionally used for fixing wooden door and window frames into block work.
- Frame cramps can also be used for restraining masonry to new and existing structures in non-structural applications and can easily be shot fired into steel work.
- 50mm upstand for easy fixing.
- Two 6mm holes and one 8mm hole.
- Galvanised after manufacturing for superior corrosion resistance.

Dimensional Data

Product Code	Width (mm)	Thickness (mm)	Projection Length (mm)	Upstand (mm)
100FFC	25	2.3	100	50
150FFC	25	2.3	150	50
200FFC	25	2.3	200	50

All stated figures (mm) are approx and for reference only

Installation Guidelines

- Use appropriate fixings.
- Always ensure that compatible corrosion resistant fixings are used, i.e. do not use galvanised fixings with stainless steel products or vice versa.
