

Hi-Vis Clothing

The movement of machinery and vehicles in the workplace presents major risks to staff and visitors. There are more than 5,000 incidents involving transport in the workplace each year. Staying visible with the use of high visibility clothing is essential when working on construction sites and in warehouses and significantly reduces this risk.

EN ISO 20471 categorises all Hi-Vis clothing into three classes. The selection of Hi-Vis should be based on a risk assessment of the conditions and risks for a particular worker.

Certification of items into classes is based on the combined surface area of reflective materials for each item:

	Class 1	Class 2	Class 3
Reflective Tape	0.10 sqm	0.13 sqm	0.20 sqm
Fluorescent Material	0.14 sqm	0.50 sqm	0.80 sqm

Hi-Vis Class 1 – The lowest level of visibility. An example would be Hi-Vis trousers when worn separately from other High-Vis items.

Hi-Vis Class 2 – The intermediate level of visibility. An example would be a Hi-Vis sleeveless vest.

Hi-Vis Class 3 – The highest level of visibility. An example would be a Hi-Vis Jacket.

Class 3 can be achieved in two ways. Simply select an item to Class 3 such as a Parka jacket or combine items with total reflective material equal to or greater than a single Class 3 item.

Executive Vests

High visibility executive waistcoat with highly reflective panels to body and shoulders for visibility, particularly during the hours of darkness. Secure zip fastening with multiple utility pockets for ID card, mobile phone, pens and two bellowed front pockets plus a radio loop D ring.

- Zipper fastening
- 50mm reflective tape on body and shoulders
- 100% knitted polyester
- Conforms to EN ISO 20471:2013+A1:2016
