

Technical Data Sheet

Ref: TDS-08-GAP-03

Wire Rope Thimbles

Zinc

Features

- Wire rope thimbles are used to protect the eyes of the cable and rope slings from abrasion by providing a solid steel barrier between the cable strands and other rigging fittings used in the connection.
- Easy fit.
- Improves strength of wire.
- Available in zinc plating for corrosion resistance.

Dimensional Data

Product Code	Finish	To suit Rope Size Ø (mm)
427110	Zinc	4.0
