ZIP-FIX®
CAVITY FIXING

RAPID INSTALLATION

Heavy duty cavity wall anchor for use in **plasterboards**, most **hollow concrete blocks, cavity walls** and **ceilings**.

Pack includes both **40mm** and **60mm** screws for a wider variety of fixture thicknesses.

PERFECT FOR FITTING

TV Brackets | Radiators | Cabinets

FCH = FIXTURE CLEARANCE HOLE. MFT = MAX. FIXTURE THICKNESS

Drill a 13mm hole in the substrate. 50mm cavity clearance required behind substrate.

Ensuring the thumb tab faces upwards, insert the metal toggle through the hole, so it pivots down behind the substrate.

Zip the nylon collar towards the wall so the collar sits into the drilled hole. Then snap off the nylon arms.

Insert a M6 screw through the fixture and into the threaded part of Zip-Fix and tighten until secure.
