

NITO II Industrial Spray Gun

Robust gun for flushing and cleaning jobs in industry and trades – up to 90°

For flushing and cleaning jobs in industry and trades

The NITO II Industrial Spray Gun features stepless regulation and easy adjustment of the dispersion pattern. The gun is made of chemical-resistant material and built to sustain impacts and shocks.

Application

- For flushing and cleaning jobs in industry and trades where a robust and water-saving gun is required
- For water with or without soap solution, e.g. for rinsing, washing, flushing and soap dispensing.
- Infinitely adjustable dispersion, from a concentrated jet to a 60° spray
- Dispersion can be adjusted without the need for tools
- For safety reasons, the gun is lockable, meaning that the trigger cannot be activated when the lock is engaged
- Thermic protected handle
- Ergonomic design
- The front end of the gun is made of chemical-resistant rubber, which protects the gun by absorbing external impacts and shocks.
- Do not use with steam!
- Avoid scalding: Use Nito safety couplings

Technical specifications:

- Working pressure: Max. 25 bar
- Temperature: Max. 90°C
- Weight: 0.7 Kg
- Volume flow (at 5 bar):
2-nozzle: 20 l/min. 3-nozzle: 30 l/min.
4-nozzle: 40 l/min. 6-nozzle: 60 l/min.

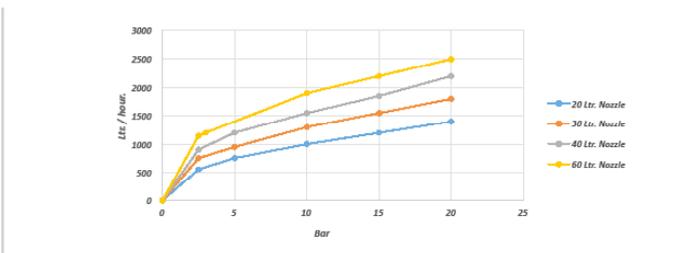

Materials:

- Valve housing: Cold-moulded aluminium
- Valve parts: Brass MS58 & stainless steel EN 1.4523
- Gaskets: EPDM/NBR
- Plastic parts: Orgalloy
- Attachment Connection options: 3/4" female BSP (standard)
- NITO nipple: 1/2", 3/4" and 1"
- Hose tail: 1/2", 3/4" and 1"

Item Number	Description
30515A3	NITO II Industrial Water Gun with Safety Couplers
30550A3	NITO II Industrial Water Gun 40 L with 3/4 female BSP
30800A3	NITO II Combi Industrial water gun with 3/4" female BSP
30210A0	NITO II Supplementary set
