

Mountable Steel Air Hose Reel

Features

- Heavy ribbed steel plate
- Spring located in the centre
- Four-direction non-snap hose rollers
- Adjustable arm guide
- Elegant appearance, dual pedestal base
- Special swivel joint
- Ball bearing swivel joint structure
- Corrosion-resistant powder coating

Benefits

- Strong support
- Ensures reel stability
- Reduces hose wear
- Enables wall, floor, ceiling and pit mounting
- Versatile usage
- Easy maintenance and repair
- Reduces friction, extending service life
- Used in most environments

Air Hose Reel	
SAHR-15-12SR608F	
Hose material	Synthetic rubber
Hose working length	15m
Hose internal bore	1/2"
Inlet	1/2" BSP female
Outlet	1/2" BSP female
Maximum working pressure	20 bar (290 psi)
Working temperature	-20°C to +60°C
