

# Mountable Steel Air Hose Reel

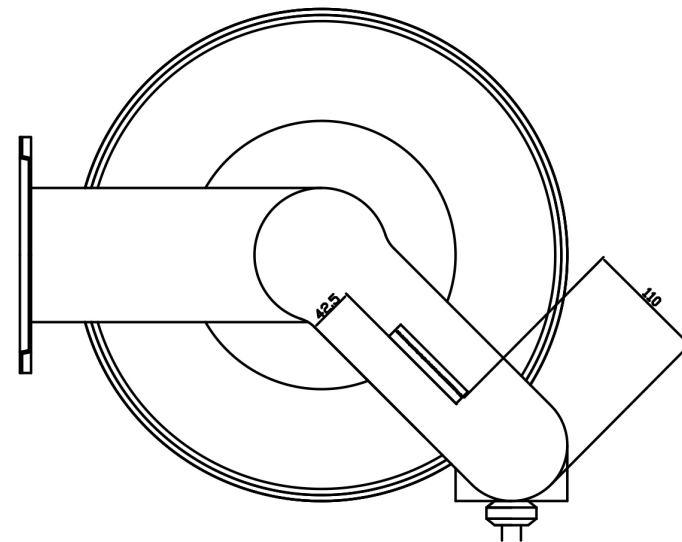

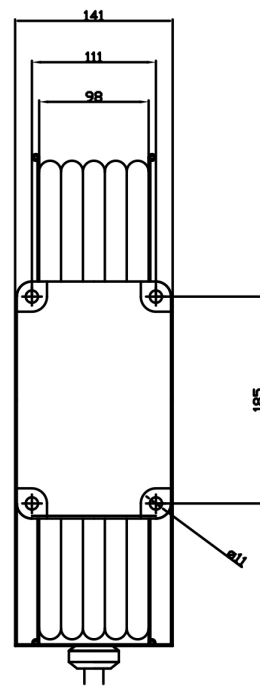

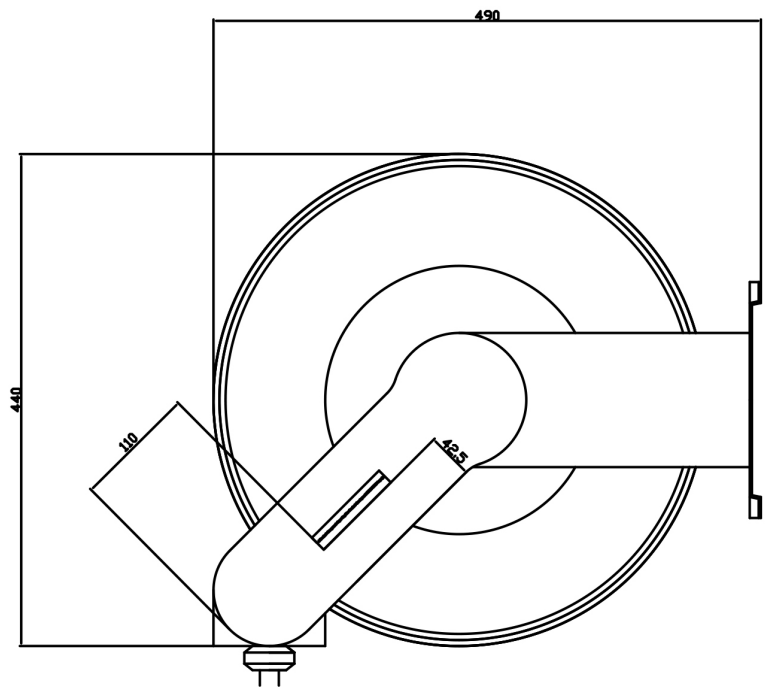

## Features

- Heavy ribbed steel plate
- Spring located in the centre
- Four-direction non-snag hose rollers
- Adjustable arm guide
- Elegant appearance, dual pedestal base
- Special swivel joint
- Ball bearing swivel joint structure
- Corrosion-resistant powder coating

## Benefits

- Strong support
- Ensures reel stability
- Reduces hose wear
- Enables wall, floor, ceiling and pit mounting
- Versatile usage
- Easy maintenance and repair
- Reduces friction, extending service life
- Used in most environments
