

COAX® cartridge MINI Si08-3, holding cap silencer, vacuum filter

Article number: 0113579

- Three-stage COAX® cartridge - MINI - with extra high initial vacuum flow.
- Includes a flow-through silencer and a built-in vacuum filter for harsh environments.
- Large vacuum flow in relation to energy consumption.
- Good for handling porous materials or if leakage is present. Recommended for high speed applications.
