

PFA Tubing, 10 Metre Coils

Key Features of PFA Tubing:

- ADI-PFA tubing
- Very wide temperature range from -260°C (-436°F) to +260°C (+500°F)
- Good mechanical strength at elevated temperatures
- Excellent chemical resistance
- Low gas diffusion
- UL 94 V-O flammability rating, LOI 95%
- Smooth internal surfaces
- Good clarity, refractive index 1.34
- Gamma and EtO sterilisable
- Physiologically harmless
- FDA and USP Class VI compliant
- Inherent purity
