

Hydraulic Hose Range

MOBI-KIT Pellet Launcher Kit

Benefits

The AIR-MATE pellet launcher uses compressed air to fire a foam pellet through tube, pipe and hose, clearing soft deposits and loose debris as it travels through.

The Crimp Kit is specifically for use with hose, tube and pipe from 5mm - 50mm.

The Hose Nozzle fits over the tube, hose or pipe to be cleaned.

The pellet Launcher is designed to operate at 80 - 110 psi and should be connected by a 3/8 (10mm) ID air line to an air source NOT exceeding 150 psi.

Contents Description

AM-2 Hand Piece:	x 1
AM-2 100mm Head	x 1
Hose Nozzles Tips:	NAHN063, 075, 079, 088, 100mm
Nozzle Bases:	NBE075-75mm Base & AR4-075 Reducer Ring
	NBE100-100mm Base
Pressure Relief Valve:	x 1
Pressure Gauge:	x 1
User Manual:	x 1
Pellet Chart:	x 1
Case Size:	Large
Foam Inset:	x 1
Quick Release Fitting:	3/4" Female Fitting
