

AS001/BioPU ANTI-FATIGUE FOOTBED

Specification: Suitable for requirements: Anti-Static, ESD
Size UK 2-16

FEATURES

Anti-Static

ESD Certified

Larger Sizes

Smaller Sizes

PRODUCT DESCRIPTION

The Activ-Step® BioPU footbeds are designed to reduce foot fatigue, using the same cushioning principle as anti-fatigue floor matting.

The footbed core contains 29% bio-based content derived from sweet corn oil, certified under the **USDA BioPreferred Program**. The top layer is made from recycled post-consumer polyester.

Size Chart	
UK 2-4	S
UK 5-7	M
UK 8-10	L
UK 11-13	XL
UK 14-16	XXL

PRODUCT FEATURES

The Bio PU comfort foam reduces tired feet and fatigue through a long shift.

The high-abrasion top layer, made from recycled post-consumer polyester, gives soft comfort directly underfoot, while static dissipating stitching helps maintain compatibility with anti-static and ESD rated footwear where required.

ESD and Anti-static properties are void when used in conjunction with footwear conforming to ASTM F2413-24 Electrical Hazard Specification

SUBJECT TO CHANGE WITHOUT PRIOR NOTICE: 01/03/2026
