Product Details

Colour: Black
Size Range: UK 5-14
(INC 6.5 and 10.5)
Height: 8.5 inches
Weight: 1123g

PRODUCT DESCRIPTION

RF800 PowerMax Dominate with unparalleled safety. Featuring 18kV AC Electrical Hazard protection, durable LWG Gold-certified leather upper, and FORCE10® components including lightweight fibreglass toe cap. Moisture-Tech by Sympatex® ensures dry feet, while IMPACT SHIELD™ digging plate safeguards against underfoot injuries. Activ-Step® footbed provides all-day comfort for demanding applications.

MATERIAL BREAKDOWN

UPPER MATERIAL: Water Repellent Full Grain Leather, Helcor Abrasion Resistant Leather, LWG Certified

EYELETS: Plastic

LACES: 100% Post Consumer Recycled Polyester

FOOTBED: Activ-Step® PU Foam, 100% Post Consumer Recycled Polyester Top Mesh

LINING: 60% Post Consumer Recycled Polyester, 40% Nylon

SCUFF CAP: FORCE10® 59% Bio TPU

KICK PROTECTOR: Helcor® High Abrasion Leather

MEMBRANE: Moisture-tech by Sympatex®

OUTSOLE: FORCE10® Dual Density PU, Nitrile Rubber

DIGGING PLATE: Impact Shield™ Polypropylene

PROTECTIVE TOECAP: Fibreglass

PROTECTIVE MIDSOLE: Activ-step® Penetration Resistant

EN 2022 SPECIFICATION

Safety footwear is classified in the UK and EU by the EN 20345 standard using a categorisation of S1 through to S7 to quickly determine the level of incorporated safety components. This is further supported by letter codes for additional safety components or tests the footwear has undergone.

For further information contact the Rock Fall sales team.

Always check with your health and safety management if you are unsure of the appropriate specification required by your workplace.

Class 1 refers to footwear made from leather & other materials, excluding all polymeric and all rubber footwear
Class 2 Refers to all polymeric footwear including all rubber footwear.

S3, S5, S7 Specify metallic midsole tested at 1100N.

S3L, S5L, S7L specify non-metal midsole tested at 1100N with a 4.5mm nail.

S3S, S5S, S7S specify non-metal midsole tested at 1100N with a 3mm nail.

Please note that the EN20345:2022 specification does not necessarily apply to the footwear represented here, and that there are further specifications attaining to specific safety tests and standards. Always check specification and standards of the footwear before purchase. For more information on specifications and standards, get in touch with our team for complete guide.

WELLBEING & COMFORT

When you spend your working day on your feet, discomfort and incorrect footwear can cause serious long-term issues. That's why our footwear is designed to support your feet where they need it most, and we have a wide variety of styles to fit every kind of foot. Make sure your footwear is providing the correct arch support, and that your footwear is the correct size for your feet.

FOOTWEAR CARE

Keeping your safety footwear in a good condition helps keep them comfortable and extend their useful life. Always make sure to keep the upper and sole clear of extensive mud or residue, using a brush and warm water to clean. Never dry out footwear using heat (such as placing them near a radiator) always allow them to dry naturally. Use a leather nourishment or dubbin wax to keep leather materials from drying out.

PRODUCT DISCLAIMER

This footwear is Electrical Hazard and tested in accordance with the test method as set out within ASTM F2412-24. This protection deteriorates rapidly in humid, damp and wet environments and with wear. Electrical Hazard (EH) Safety footwear is intended as secondary source protection equipment and not for live working. This boot has been independently tested in accordance to the IEC 61482-1-1:2019 arc test methods. The results achieved are not an official rating or standard and the conclusions are not covered by the ENAC accreditation scope. The project ATPV rating for the material is 126 Cal/cm² and project rating for whole footwear was No Burns observed at 109.4 Cal/cm². Laces to the same specification from the manufacturer should be used as replacements.
